

ATLAS OF THE ONSHORE BLOCKS BID IN 2014

An Atlas Book is a collection of different types of maps and other cartographical, geographical or astronomical information grouped in a book. The main objective of these Atlas is to represent the accessibility of the 15 onshore blocks of the Lower Congo and Kwanza Basins, namely: CON1, CON4, CON5, CON6, KON2, KON3, KON4, KON5, KON6, KON7, KON8, KON9, KON11, KON12 and KON17. They have information such as relief, hydrography, administrative boundaries, geodesic marks, population density, roads, land covers, and others. The data type featured in these Atlas includes images and thematic vector layers, which convey information about the ground, aimed to help in creating an effective work plan in the block.
